

RoHS

#### FEATURES

- High accuracy
- Infinite resolution
- Long term reliability
- Wide -55° to +150°C operating temp range
- Rugged stainless steel housing
- Shielded ABEC 3 precision bearings

#### **APPLICATIONS**

- Valve position
- Machine tool equipment
- Rotary actuator feedback
- Dancer arm position
- Process control

# **R36AS** AC Operated RVDT for Harsh Environments

### **SPECIFICATIONS**

- AC operation
- ±60 degree angular sensing range
- Non-contact electrical design
- Wide operating temperature range
- Size 15 servo mount
- Stainless steel housing
- MS style hermetic connector

The **R36AS RVDT** (Rotary Variable Differential Transformer) is an angular position sensor that incorporates a proprietary noncontact design which dramatically improves long term reliability when compared to other traditional rotary devices such as synchros, resolvers and potentiometers. This unique design eliminates assemblies that degrade over time such as slip rings, rotor windings, contact brushes and wipers, without sacrificing accuracy.

High reliability and performance are achieved through the use of a specially shaped rotor and wound stator coil that together simulate the operation of a Linear Variable Differential Transformer (LVDT). Rotational movement of the rotor shaft results in a linear change in the amplitude of the output signal, directly proportional to the shaft angle change, while the phase of this signal indicates the direction of displacement from the null point. Non-contact electromagnetic coupling of the rotor provide infinite resolution.

AC operation eliminates the need for integrated signal conditioning components, thereby offering the user a very wide operating temperature range of -55°C to +150°C. Factory calibrated to operate over a  $\pm$ 30 degree range, the R36AS offers a non-linearity of less than  $\pm$ 0.5% of full range. Extended range operation up to a maximum of  $\pm$ 60 degrees is possible with increased non-linearity.

Packaged in Size 15 servo mount stainless steel housing, an MS style hermetic connector, and a shaft seal, the R36AS is the perfect choice for angular position sensing in harsh environments.

## PERFORMANCE SPECIFICATIONS

<u>Notes</u>:

All values are nominal unless otherwise noted

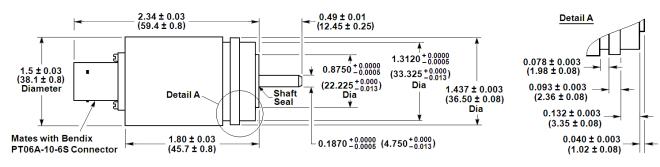

Dimensions are in inch [mm] unless otherwise noted

(\*): Unit for output at range ends is millivolt per volt of excitation (input voltage)

FR (Full Range) is the angular range, end to end;  $2xA^{\circ}$  for  $\pm A^{\circ}$  angular range

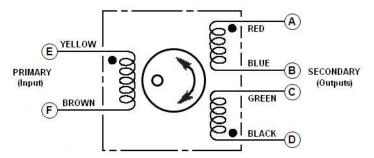

FRO (Full Range Output): Algebraic difference in outputs measured at the ends of the range

### DIMENSIONS

Dimensions are in inch (mm)

## WIRING INFORMATION

A through F: Connector pin assignments; Connect B to C for differential output

## ORDERING INFORMATION

Description	Model	Part Number				
RVDT ±30°, 2.5kHz calibration (standard)	R36AS	02560927-000				
RVDT ±45°, 2.5kHz calibration	R36AS	02560927-045				
RVDT ±60°, 2.5kHz calibration	R36AS	02560927-060				
ACCESSORIES						
Multipurpose coupling kit	R-FLEX	66530072-000				
Mating connector kit	PT06A-10-6S(SR)	62101011-000				
Interconnect cable for LVM-110/LiM 4-20/CTS 420 Conditioners (1)	R36AS to Stripped/Tinned	04290417-000				
Interconnect cable for ATA-2001 Signal Conditioner (1)	R36AS to DB-9P	04290457-000				
Interconnect cable for MP2000 Series Set-Point Controller (1)	R36AS to 05BL5M	04290560-000				
Interconnect cable for LDM/PML-1000 Signal Conditioners, 200°C (1)	R36AS to Stripped/Tinned	04290595-000				

(1) All cables are shielded, 10 foot long, and rated 80°C [176°F] operating unless otherwise noted. Consult factory for other lengths.
